

Journal of Computer Science and Technology

Author(s) Confirmation

For our submission to *Journal of Computer Science and Technology* with

Manuscript Title:

Revisiting the Student Sectioning Problem through Graph Representation Learning

Author(s): (please list the author names in order)

Mahmood Amintoosi

Affiliation(s):

Computer Science Division
Department of Applied Mathematics &
Graph Theory and its Applications Lab
Faculty of Mathematical Sciences,
Ferdowsi University of Mashhad, IRAN,

We confirm you that:

1. The submission is original, and has never been published in any form and in any language.
2. The submission is not under consideration or accepted for publication in any form and in any language elsewhere.
3. All involved bibliographies are properly cited. The submission does not infringe any intellectual property rights (including without limitation copyright, database rights or trade mark rights) or other third party rights and no license from or payments to a third party are required to publish the submission. If the submission contains materials from other sources (e.g. illustrations, tables, text quotations), Author(s) have obtained written permissions to the extent necessary from the copyright holder(s). Otherwise, Author(s) of the submission shall take the blame for the violation or infringement of the related copyright and indemnify JCST for all its losses incurred.
4. No data have been fabricated or manipulated (including images) to support the conclusion of the submission.
5. Nothing in the submission infringes any duty of confidentiality which any of the Author(s) might owe to anyone else or violates any contract, express or implied, of any of the Author(s). All of the institutions in which work recorded in the submission was created or carried out have authorized and approved such research and publication.
6. There is no signature controversy. Authors whose names appear on the submission are aware of being listed as co-authors, have contributed sufficiently to and share collective responsibility and accountability for the work of the submission, and have agreed on the submitted version. No changes of authorship or the order of the Authors can be made without an agreement signed by all the Authors.
7. Nothing in the submission is obscene, defamatory, violates any right of privacy or publicity, infringes any other human, personal or other rights of any person or entity or is otherwise unlawful and that informed consent to publish has been obtained for all research participants. Any studies involving human or animal subjects conform to national, local and institutional laws and requirements and the approval has been sought and obtained where appropriate.
8. Following submission, authors shall not submit the manuscript to any other journal, conference, or preprint platform within six months. If no editorial decision has been communicated by the end of this six-month period, the manuscript may be submitted elsewhere only if: (a) the authors have requested withdrawal via email and received confirmation from the editorial office; and (b) the manuscript status in the submission system has been updated to Draft.
9. Preprint posting prior to submission is permitted, provided that the preprint is disclosed in Author's Cover Letter at submission. Upon acceptance, authors shall update the preprint to clearly indicate acceptance for publication, along with the full citation and DOI when available.
10. Artificial Intelligence Generated Content (AIGC) has not performed the role of authors. If AIGC is used, Authors have fully and accurately disclosed and stated it in the Disclosure and Statement of the Use of Artificial Intelligence Generated Content in the second page.

Autographs of All the Authors (Procuration of Signature Is Not Permitted)

Disclosure and Statement of the Use of

Artificial Intelligence Generated Content (AIGC)

[Template]

Statement: In preparing this paper of [title of the paper], the authors used [name of specific AIGC tool/service] for [purpose of use: such as language polishing, proofreading, or reference formatting]. After using this tool/service, the authors have reviewed and edited the content as necessary and take full responsibility for the content of the publication.

During the preparation of this paper of "Revisiting the Student Sectioning Problem through Graph Representation Learning", the author used AI-assisted tools and services, including Sider, Mimo, Buffy (via Freebuff), OpenAI ChatGPT, and Z.AI, for various aspects of the research and manuscript preparation process, including writing and editing assistance, code development and scientific presentation. After using these tools/services, the author has reviewed, verified, and edited the content as necessary and take full responsibility for the accuracy, integrity, and final content of the publication.

Signature of Authors:

A handwritten signature in blue ink, appearing to read "Amintor", with a stylized flourish extending from the end.
